CAF-COMPO is wins Honorable Mention for the IBEX Innovation Award 2017
Press release, September 2017

The CAF-COMPO screw-stud is awarded an Honorable Mention for the IBEX Innovation Award 2017 during the exhibition in Tampa, Florida September 2017. Despite being about the smallest item on deck, it is recognized to be a true relief for boat builders and owners to have those studs 100% corrosion free and blended away in the deck colour. SUREFAS and the team behind this invention is proud and honored for this great recognition and feel encouraged to continue improving textile fastener solutions for all.

About IBEX: International BoatBuilders' Exhibition & Conference (IBEX)
IBEX is the marine industry's largest technical trade event in North America and is powered globally by METSTRADE, the world's leading platform and community for professionals in the leisure marine equipment industry. IBEX is owned and produced by the National Marine Manufacturers Association (www.nmma.org) and RAI Amsterdam (www.rai.nl). The 2017 IBEX is scheduled to take place at the Tampa Convention Center, September 19 – 21, in Tampa, FL USA. For more information, please visit www.ibexshow.com.

About CAF-COMPO:

CAF-compo screw-stud is a composite self-tapping screw stud for use in fiber glass, wood and other composites. The stud is the lower part of a snap or ring-spring press fastener system. The stud will fit any regular ring spring socket, no matter the material nor supplier. It comes in a few white variants to match deck colour of yachts, light grey and black, or any custom colour you like. And finally, no issue with corrosion or wearing out. A version with a metric thread makes it possible to solve the corrosion issue on any aluminum surface, like window-frames.

CAF-COMPO is introduced in fall 2017 and is nominated for the IBEX Innovation Award 2017. CAF-COMPO received an HONORABLE MENTION of the IFF IFAI Innovation Award. The overwhelming positive reactions made us determined to conquer the world with this next generation fastener.

Stand number at IBEX: 3809

Stand number at IFAI Expo: 2319

Company information:

SUREFAS B.V. is a Dutch company founded in 2003 and is dedicated to offer smart and high quality solutions for textile fasteners. SUREFAS is the company name behind the invention of PERFIX, a secured fastener with no protruding pins (safe and secure) and Q-SNAP, a secured fastener with stretch function. The products are known for their quality and are worked out in every minor detail and for all stakeholders. It is selling its products in over 35 countries. With this experience and dedication CAF-COMPO® is introduced. And there is more to come.
